

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

# PREFACE TO THE SEVENTH EDITION.

---

The growing interest taken in Railways consequent upon the increase in all kinds of traffic, the passing of the Railway and Canal Act, &c., has caused a greater demand for the **HAND-BOOK OF STATIONS**, and it is the earnest desire of the Proprietors to keep pace with the requirements of Railway Officers and Staff, as well as the general commercial public, and no effort has been spared to make the **HAND-BOOK** as complete as possible in every respect. In issuing this, the Seventh Edition, we have to state that all additions and alterations consequent upon the opening of new lines and stations, amalgamations, changes in station accommodation, crane power, names of stations, and closing of places, have been carefully carried out, and the Book thoroughly revised and completed to present date.

The whole of the Appendices issued since the Sixth Edition (July, 1883) have been embodied in this Edition, which contains all the Stations, Junctions, Sidings, Collieries, &c., on the Railways in the United Kingdom of Great Britain and Ireland—upwards of 20,000—and indicates opposite each, the County, Railway on which situated, exact Position, facilities provided for dealing with Goods, Passengers, Parcels, and Live Stock Traffic, also the Accommodation for Loading and Unloading Furniture Vans, Carriages, Portable Engines, and Machines on Wheels.

Some improvements have been made in this Edition, the fixed Maximum Crane Power only being shown opposite each Station. Under the head of "Explanatory Notes," on the following page, full explanations are given as to Travelling Cranes, and the principle upon which the Book has been compiled is fully set forth, with examples. When Companies reach Stations over other Companies' Lines, either by running powers or working arrangements, they are fully and clearly defined.

There are many instances of Stations of the same, or nearly the same, name, but a reference to this Work will show at a glance the particular Station required, and thus prevent any confusion or delay which might otherwise arise.

The whole of the information having been furnished officially, compiled with great care, and duly certified, will prove of great value, not only to the Officers and Servants of the various Railway Companies, but also to the commercial public generally, and all who have anything to do with Railways.

We have received the ready and cordial assistance of the Executive of all the Railway Companies, and avail ourselves of this opportunity of tendering to them our warmest thanks for their valuable co-operation and help.

OLIVER & AIREY.

January, 1890.

# EXPLANATORY NOTES.

**CRANE POWER.**—The crane power shown, represents the maximum *fixed* crane power at each Station, but most of the Companies have travelling cranes with a lifting power of five tons and upwards, which can be removed from one Station to another, as circumstances require.

**SIDINGS.**—The Traffic which can be dealt with at Sidings has not been defined, and the letter "G" has only been placed opposite Goods Stations. The word Siding has been omitted after Colliery, Works, &c., and only used when necessary to distinguish Sidings from Stations.

**COAL TRAFFIC** can be dealt with at most Goods Stations, and in many instances Coal Sidings are provided adjacent to Passenger Stations.

**PARCELS TRAFFIC** can be dealt with at all Passenger Stations.

The positions of the Sidings, Collieries, &c., are described either by the two Stations they are between, or by the Stations they are near. **EXAMPLES:**—Saxby & Farmer's Siding is shown as on the London and North Western Railway, between Kilburn & Maida Vale and Willesden Junction; but if the exact position of these two Stations should not be known, a further reference to Kilburn & Maida Vale or Willesden Junction will show them to be between Euston and Harrow. Gyfeillon Colliery is shown as on the Taff Vale Railway between Hafod and Pontypridd; and on reference, Hafod will be found to be between Pontypridd and Porth, and Pontypridd between Cardiff and Quaker's Yard.

When two or more Companies own or use the same Station, it is shown thus:—

## CAMBRIDGE—

Station .....	G . F L 10	0	Cambridge Great Northern .....	Branch near G. E. Pass.
Station .....	G . F L 10	0	Cambridge London & North Western Bch.—	Lords Bridge & G. E. Jn.
Station .....	G . . . .	.	Cambridge Midland .....	Over G. E. from St. Ives Junc.
Station (G. E.) .....	{ G . F L 10	0	Cambridge Great Eastern .....	Branch South of Pass. Station.
	{ G . F L 5	0	Cambridge Midland .....	Over G. E. from St. Ives Junc.
Station (G. E.) .....	{ . P F . .	.	Cambridge Great Eastern .....	Chesterford and Ely.
	{ . P F . .	.	Cambridge Great Northern .....	Over G. E. from Shepreth Jn.
	{ . P F . .	.	Cambridge London & North Western	Over G. E. from Cambrid. e Jn.
	{ . P F . .	.	Cambridge Midland .....	Over G. E. from St. Ives Junc.

In cases where a Station and Junction are at one and the same point, they are shown thus:—

Berwick Station and Junction.

Should there be more than one Junction at the same place, they are shown thus:—

Reading Junction .....	G. W.—L. & S. W.
Reading Junction.....	L. & S. W.—S. E.

## RUNNING POWERS AND WORKING ARRANGEMENTS.

As a general rule the intermediate as well as the terminal Stations to which Companies run over the lines of other Companies for Goods Traffic are shown, but for Passenger Traffic the terminal Station only is given, and in both instances the lines and Stations so used are distinguished, thus—

*Midland over London and North Western for Goods, between Walsall Junction and Dudley.*

Wednesbury Sta. (L.&N.W.) G . F L 10 0 Stafford ... { Lon. & No. Western Darlaston Loop Line.  
 { Midland ..... Over L. & N.W. fr. Walsall Jn. |

*Great Western and London and North Western over Metropolitan District for Passengers, between Earl's Court Junction and Mansion House.*

Mansion House (Met. Dist.) . P . . . . Middlesex { Metro. District..... Blackfriars and Cannon Street.  
 { G. W.—L. & N. W. Over Met. Dist. fr. Earl's Court Jn.

## EXPLANATORY NOTES—continued.

**JOINT RAILWAYS.**—When lines are worked jointly by the owning Companies, and treated as part of their own system, the name of the Joint Line and owning Companies are shown thus:—

Market Bosworth.....Leicester.....Ashby & Nuneaton Joint (L. & N. W. & Mid.)...Nuneaton and Shackerstone.

When a Joint Line is treated as an independent Company, the name of the Joint Company only is shown. **EXAMPLE:—**

Knutsford.....Cheshire.....Cheshire Lines Committee.....Altrincham and Northwich.

### ALPHABETICAL ORDER, AND STATION ACCOMMODATION.

All the places are in alphabetical order (except Stations in London), and when a place has two names, the accommodation is only shown opposite one; the object being to avoid the necessity of amending the accommodation more than once when any alteration is made.

**EXAMPLES:—**

Buchanan Street .....	Lanark .....	Caledonian .....	See Glasgow, Buchanan Str.
Glasgow, Buchanan Str. G P F L 25	0 Lanark .....	Caledonian .....	Terminus.
Hockley .....	0 Warwick ...	Great Western .....	See Birmingham, Hockley.
Birmingham, Hockley... G P F L 15	0 Warwick ...	Great Western .....	Snow Hill and Soho.
Totley .....	0 Derby .....	Midland .....	See Dore and Totley.
Dore and Totley .....	0 Derby .....	Midland .....	Dronfield and Beauchieff.

London Stations have been made an exception to this rule.

The Stations shown under the head of London are arranged in alphabetical order of Companies; they also appear under their initial letter in the general order of Stations, and the accommodation is given under both headings.

**EXAMPLES:—**

London, Stratford, Central G P F L 10	0 Essex .....	Great Eastern .....	Bishopsgate and Tottenham.
Stratford, Central..... G P F L 10	0 Essex .....	Great Eastern .....	Bishopsgate and Tottenham.

List giving **LIMIT** of Stations of each Company shown under the head of London:—

East London Joint .....	All Stations.	Lon. Tilbury & Southend	Bromley.
Great Eastern .....	Tottenham and Stratford.	Metropolitan .....	Kilburn-Bronesbury.
Great Northern .....	Harringay and Highgate.	Metropolitan District .....	Hammersmith and Putney
Great Western .....	Acton.		Bridge.
Hammersmith & City Joint	All Stations.	Midland .....	West End for Kilburn.
Lon. & India Docks Jt. Com.	All Stations.	No. & So. Western Jn. Jt.	Hammersmith & Chiswick,
London & North Western ..	Queen's Pk. (West Kilburn)		and Acton.
	and Kensal Green.	North London .....	All Stations.
London & South Western	Clapham Junction and	South Eastern .....	New Cross and Deptford.
	Ravenscourt Park.	Tott. & Hampstead Jn. Jt.	All Stations.
Lon. Brighton & So. Coast	Clapham Jn. & New Cross.	West London Joint .....	All Stations.
London Chatham & Dover	Brixton & Peckham Rye.	West London Extension Jt.	All Stations.

A complete list of all the Railway Companies, also of Joint Railways, with names of Companies owning the same, are shown on the following pages, and Companies not parties to the English Clearing System are distinguished.

*Every care has been taken to make this work as complete and correct as possible in every respect, but the Station accommodation and Crane power are liable to change, and every effort will be made to notify these changes by the issue of an Appendix, early in each year, containing all additions and alterations; but the Proprietors cannot hold themselves responsible for any liability in cases of loss through the information given being incorrect.*

---

**NOTE.**—"Bodmin and Wadebridge Line."—The London and South Western Company have no direct connection, at present, with their Bodmin and Wadebridge Section.

The Neath and Brecon Line from Brecon to Ynisgeinion Junction has, since July, 1889, been taken over by the owning Company, and the Midland Company, who, previous to that date, held this Section under lease, now only use it for through traffic; the Stations on the Section should therefore now read as Neath and Brecon only.

These Maps have been drawn from the Ordnance Survey, and compiled with great care from details supplied by the Railway Companies, all of which have been duly certified. They show clearly the different systems of Railways in colours, distances in miles and chains, Stations, Junctions, Sidings, Collieries, Tunnels, Levels where lines cross, Private Lines and Works, also the Counties, Canals, Rivers, Docks, &c., and a complete list of the Running Powers and Working Arrangements in each district.

## RAILWAY JUNCTION DIAGRAMS.—Seventh Edition. Price 15/-; by Post, 15/9.

The Book of Railway Junction Diagrams includes every Junction in Great Britain, and brings out clearly the properties in colours, and points of connection between the Railways at each Junction, with the distances in miles and chains, Tunnels and Levels; also a complete List of the Running Powers and Working Arrangements, and Special Allowances under Act of Parliament of each Company, arranged in alphabetical order. Supplement of new and amended Diagrams published annually in January, price 1/6, by post 1/8.

“All who have anything to do with Railways will find these Maps and Diagrams of the greatest service.”—*Railway News*.

Remittances to be made by Cheque, or Post Office Order payable at the Euston Square Post Office, to JOHN AIREY, RAILWAY CLEARING HOUSE, SEYMOUR STREET, EUSTON SQUARE, LONDON, N.W.
